 jvsvishwa87@gmail.com

 [linkedin.com/in/viswanadh-jvs42340614b](https://www.linkedin.com/in/viswanadh-jvs42340614b)

Dynamic and solution-oriented Front-End Developer with a focus on creating innovative web applications, seeking opportunities in front-end, Gen AI and full-stack development. Aiming to leverage expertise in user interface design and performance optimization to enhance user experiences.

 **Core Competencies**

Front-End Development

UI/UX Design Implementation

Performance Optimization

Data Visualization

API & GraphQL Integration

Infrastructure Development

Agile & Secure Development

Generative AI

Continuous Learning

Responsive Web Development

Cross-Browser Compatibilty

 **Technical Skills**

 **Front-End Technologies:**
Angular, JavaScript, TypeScript, HTML, CSS, React

 **Web Programming Concepts:**
Object-Oriented Web Programming, DOM Manipulation, Object Models

 **Charting Libraries:** D3.js, Chart.js, ECharts, AmCharts

 **Data Querying & APIs:**
GraphQL, API Integrations

 **Education**

 **Bachelor of Technology (B.Tech.) in Computer Science**
Avanthi Institute of Engineering & Technology (2019 – 2022)

 **Diploma in Computer Engineering**
Government Polytechnic College, Anapapalli (2014 – 2017)

 **Profile Summary**

 Experienced Front-End Developer with **3+ years** of expertise in crafting **responsive, high-performance web applications** using **Angular, TypeScript, React** and modern JavaScript frameworks to deliver seamless user experiences.

 Proven ability to translate complex **UI/UX designs** into clean, maintainable, and scalable code, ensuring **accessibility** and **cross-browser compatibility** aligned with **user-centered design principles**.

 Skilled in optimizing web application performance through advanced techniques such as **code minification, lazy loading, and image optimization**, resulting in faster load times and enhanced user engagement.

 Proficient in integrating sophisticated data visualization tools like **D3.js, Chart.js, ECharts**, and **AmCharts** to create dynamic, visually compelling dashboards that drive **data-driven decision-making**.

 Strong background in API development and integration, including expertise with **GraphQL queries**, ensuring efficient data fetching and smooth backend communication.

 Collaborative team player with hands-on experience in **Agile methodologies** and **Secure Software Development Life Cycle (SSDLC)**, promoting adaptive, secure, and iterative development processes.

 Keen interest and foundational knowledge in leveraging **Generative AI technologies** to **automate UI testing, enhance code generation**, and create **intelligent, adaptive front-end interfaces** that improve user experience and development efficiency.

 **Work Experience**

Helius Technologies
UI Developer in DBS Tech (Contractor)
Jul 2022 – Present

Key Result Areas:

 Lead the design and development of intuitive, user-friendly web applications leveraging **Angular, JavaScript and React** to enhance overall user engagement.

 Utilize strong skills in **HTML** and **CSS** to craft visually appealing and responsive user interfaces that align with modern design standards.

 Implement **Object-Oriented Web Programming** principles using **TypeScript** and **JavaScript**, ensuring seamless integration with **GraphQL** and RESTful APIs for efficient data handling.

 Developed and maintained a library of **reusable UI components**, significantly reducing development time and promoting consistency across multiple projects by customizing components to meet specific project needs.

 Adapt quickly to evolving project requirements, contributing to GraphQL and API integration tasks while delivering clean, maintainable, and well-documented code within tight deadlines.

 Actively participate in **Agile development** processes and **Secure Software Development Life Cycle (SSDLC)** practices, fostering effective team communication and project delivery efficiency.

 Collaborate closely with cross-functional teams including designers, product managers, and backend developers to translate UI/UX designs into functional, scalable applications.

 Apply best practices in **performance optimization**, including code splitting, lazy loading, and minimizing rendering times to improve application responsiveness and user experience.

 Stay updated with emerging front-end technologies and trends, exploring the potential of **Generative AI** tools to automate routine coding tasks and enhance UI testing frameworks.

Key Achievements

- ⊕ Recently completed an advanced workshop on Generative AI, enhancing skills in cutting-edge AI technologies and their practical applications.
- ⊕ Secured 1st place for an IoT project on an Anti-Sleep Alarm System during college.
- ⊕ Earned recognition for significant contributions to a Gaming Development project.
- ⊕ Acknowledged for outstanding efforts in improving project efficiency and fostering strong team collaboration.

Highlights:

- ⊕ Developed a suite of reusable components that decreased development time by around 50%, allowing for faster project turnaround and increased productivity within the team.
- ⊕ Recognized for outstanding contributions to project efficiency, receiving commendations from management for innovative problem-solving approaches.
- ⊕ Successfully integrated advanced charting libraries into web applications, resulting in an increase in user interaction with data visualizations.

Internships

Truprojects

- ⊕ Conducted data analysis to evaluate and interpret the impact of COVID-19 vaccination on public health outcomes.

Personal Details

- ⊕ **Date of Birth:** 04th December 1998
- ⊕ **Languages Known:** English, Hindi
- ⊕ **Present Address:** Gajanana Apartment 4th Floor, 402 Ranga Street, Dabagardens, Visakhapatnam -530020.
- ⊕ **Permanant Address:** H.No 2-47, Ravalampalem Village, Anthakapalli Post, Sabbavaram Mandal, Visakhapatnam - 531035
